EXPERIENCE

Product Designer - RockWallet, Toronto, ON

Jan 2026 - Jun 2026

- Joined the team ahead of MVP launch, contributing to feature finalization for the 2.0 app release in April
- Collaborated closely with PMs, design lead, and developers to deliver end-to-end flows and features including Settings, Gift Card Redemption, and web widgets
- Presented design solutions in stakeholder meetings, raising concerns, balancing business requirements with user needs, and delivering feasible solutions grounded in UX best practices and current resource constraints
- Leveraged AI-driven workflow to accelerate research, analysis, and prototyping; vibe coded select features to reduce development effort
- Conducted post-launch usability testing following the 2.0 release, analyzing pain points and drop-off rates to drive iterative improvements to the user experience

UX Designer - Gate.io, China

Apr 2024 - Jun 2024

- Conducted problem discovery and competitor analysis ahead of the revamp, creating a redesign proposal that clarified user needs and informed project direction.
- Contributed to the website and app revamp (v2.0 → v3.0), focusing on the “My Account/My Profile” section and its subpages.
- Designed and delivered brand-aligned high-fidelity UI, balancing usability, aesthetics, and functionality.
- Implemented a new design system, optimizing user flows and interaction patterns for browsing and account management.

UI Designer - VirgoCX Inc., Toronto, ON

Jan 2022 - Jan 2023

- Designed and launched new product features (dark mode, standalone websites for Wealth & NFT departments), balancing user needs, stakeholder requirements, and technical constraints.
- Expanded and standardized the design system, ensuring scalable and consistent UI patterns across platforms.
- Conducted UX research and usability testing, synthesizing insights into actionable design improvements.
- Collaborated cross-functionally with Product, Tech, and Marketing to deliver accessible, user-centered experiences across web and mobile.
- Designed inclusive experiences by improving accessibility across digital products.
- Partnered with Marketing and Wealth teams to deliver visually compelling communication assets aligned with brand strategy, strengthening brand presence at major events.
- Designed a diverse range of marketing materials—including event posters, flyers, and social media campaign assets—to increase brand awareness and support product promotion initiatives.

UI/UX Designer - Momoisland Inc. Toronto, ON

Oct 2021 - Dec 2021

Partnered with the Design Lead to design intuitive e-commerce app flows from wireframes to high-fidelity prototypes, covering browsing, shopping, and account management
